

Privacy and data protection policy

What data the foundation collects through the site forms, why, how long it is kept and who it is shared with; data subject rights and the contact point.

1. Purpose

This policy states what personal data the foundation processes, on what basis, for how long it is kept, and what rights a person has.

2. Categories of data

Category	Example	Basis
Contact details	name, phone, email	the person's consent
Records of an approach	date, format, specialist	provision of the service
Clinical notes	assessment, session notes	provision of the service, separate consent
Candidate data	CV, covering letter	participation in a selection process

3. Access

Clinical notes are available only to the specialist carrying the case and to the clinical lead. The case management system keeps an access log.

4. Retention

Clinical notes — 5 years after the work ends; contact details — until consent is withdrawn; candidate data — 6 months after the competition closes, then destroyed.

5. Sharing with third parties

Data is not passed to donors, partners or authorities in identified form. Donors receive aggregated, anonymised indicators only.

6. The website

The site uses no advertising trackers and passes no visitor data to third parties for marketing. Forms are protected against automated submission without profiling the visitor.

7. Rights

Access to your data, correction, erasure, withdrawal of consent and complaint. Requests go to the foundation's address; the response time is 30 days.

Prepared for the demonstration version of the website. Before any public use it is replaced by the current signed version approved by the foundation.
