

PSEA — Protection from Sexual Exploitation and Abuse policy

Prohibits any sexual relations between staff and beneficiaries, sets out the duty to report suspicion, and names the reporting channels, including anonymous ones.

1. Purpose

This policy establishes an absolute prohibition on sexual exploitation and abuse (SEA) by anyone acting on behalf of the foundation, and sets out how to report and how the foundation responds.

2. Scope

It applies to staff, members of the supervisory board, volunteers, interns, consultants and contractors — including personnel engaged in delivering rehabilitation rotations: drivers, cooks and instructors.

3. Prohibited conduct

- any sexual relations with a beneficiary, regardless of the beneficiary's age or of their formal consent;
- the exchange of assistance, services, money or employment for sexual services;
- any sexual activity with a person under 18; a mistake about age is not a defence;
- relations between staff and a beneficiary that create a risk of exploitation through unequal position.

4. The duty to report

Anyone who becomes aware of a suspected breach must report it within 24 hours. Failure to report is itself a breach of this policy.

5. Reporting channels

- the anonymous form on the foundation's website, which goes directly to the safeguarding focal point, bypassing line managers;
- the focal point's email address;
- a report made through a trusted person on behalf of the affected individual.

6. Response times

Action	Within
Acknowledgement of receipt	24 hours
Decision on opening an investigation	5 working days

Interim update to the reporter	every 14 days
--------------------------------	---------------

7. Protection of the reporter

Any measure taken in retaliation against a person who reported in good faith is prohibited. The affected person is offered psychological support regardless of the outcome of the investigation.

8. Review

This policy is reviewed annually and after every substantiated incident.

Prepared for the demonstration version of the website. Before any public use it is replaced by the current signed version approved by the foundation.
